SWIFT RACERS AT WORK.

6. L. LORILLARD'S HORSES IN TRAINING. BOW THEY HAVE PASSED THE WINTER-THEIR GALLOPS AND PROSPECTS.

New stables are being built at "The Locusts," near Monmouth Park, N. J., by George L. Lorillard for his horses in training, but they will not be finished till May and the horses will not be moved into them till June. In the meantime they will remain at Moumouth Park, where a TRIBUSE reporter, through the kindness of Mr. A cock, the trainer, was permitted to see them all last week. Owing to the late spring the race all last week. Owing to the late spring the race track has only been fit to use during the last ten days, but the sandy roads in the neighborhood afford excellent ground and the horses did a good deal of work on them before they went on the track. At present the track is too hard, and trainers are afraid that it may lame their animals now that they have to be sent along in their work. No doubt this fault will soon be remedied by using heavier harrows and cutting the ground. by using heavier harrows and cutting the ground

Monmouth Park now assumes a lively aspect or account of the numerous teams taking their "breathers" on the course. On Tuesday Alcock was out at 5 o'clock for the first time this year, not having previously come for the first time this year, not having previously could not out till 7. All his horses are looking well and are more forward in condition than the majority of the horses trained by other people at Monmonth. The complete list of George Lorillard's horses in training is as

follows:	p. Glenelg-Minx.
Monitor, ca. g., we King	Alfonzo-Ero ite.
Trafalgar, ch. c., a yra Pat Mo	llor-Schettische.
Louisette, b. f., 4 yrs Ten	Glenelg-Stamps. Broeck-Tecalco.
Tolu, ch. L. 4 yrs	at Tom Melrose.
Thackeray, b. C. a year.	neig-Mistoriune.
Hopeful, b. g., 3 yrs King St. Augastine, b. c., 3 yrs	Alfonzo-Crucifix.
Triton, br. C., 3 yrs Sensation of	p. Ocean Queen.
tenn (None)	g. Fanny Brown.
Fancy b. f., 2 VIR.	Lady Mentmore.

this time last year." The old horse has improved vastly since December, and the strong blistering which he had then, together with the rest, seems to have rejuvenated him. His trainer says he will be fit to run at Jerome

"Here's the queen," said Alcock as we came to Louisette, who was looking remarkably well. Indeed it would be impossible for her to look better at this time of the year, and she will probably rank as high as a four-yearold as she ranked as a three-year-old. She carries more flesh this year than last season, but will run at Jerome

Trafalgar, who will also run at Jerome, is healthy and well, but is rather big at present. He is likely to render a good account of himself this season. Reveller is more forward in condition than any other

animal in the stable although be sweated a good deal after his gallop. He has evidently done some good work, and perhaps does not require so much as some of the others. He has thickened and improved and is hard and muscular. He will probably compensate the stable for the disappointment it had last year in not being able to Tolu, who is a fine mare through mud, looks light and

is rather tucked up, but her trainer says she is always the same. She will be fit to run at Jerome, where she is

Thackeray is a handsome little horse and is big, but he always runs better big. He looks hard and well and when he pulled up after a long gallop had hardly turned

Hopeful, of whom Alcock thinks a good deal, looks softer at present than some of the others, but as he does not require much work he can soon be got fit, and will not require much work he can soon be got fit, and will run at Jerome. He was a fast two-year-old and may make a bold bid this season for the Withers.

St. Augustine, who is a fine long colt, has done well during the winter, and is in excellent condition. After a strong gallop of a mile he scarrely turned a hair, and will be fit to run at Jerome, where he also is entered for the Withers.

Tritou, whose trainer says he was the best two-year-old he ever trained (which is saying a great deal since he had Sensation and so many other famous horses under his charge) looks well, but is backward. Little has been done with him, so that it does not look as if he will be started for the Withers, and in all probability will not run until the Monmouch Park meeting.

Fancy is a long faily that will not run until Sheepshead Bay.

Ladybird in the Juvenile has improved but is rather "queer" about the hocks.

Fay in the Juvenile is extremely small one, being only just fifteen hands in height. She takes after her dam more than her sire, is a hardy bit of stuff and has the girt of going. She will be fit by Jerome.

Mariner (own brother to Triton) is a slashing, fine colt, having great length and immense bone, and is altogether a larger colt than his bother, but not so good in his shoulders. He seems to have done plenty of work and is forward enough, as he does not run till Sheepshead. Fleetwing, who takes after his sire very much, is a promising colt. He will not run till Mounauth. Electric, whose sire and dam both won the Juvenile, is also estered for that race. He is at present rather big, although se has done good work being one of the hardy sort that wants it and can stand it. Alcock thinks much of him, and as he is good looking he should make his mark, when fit.

and quality. He will not be wanted till Monmouth, and carries a good deal of fiech now.

Alcock was the first to appear on the track about 5 a. m. with his two year-olus, consisting of Mariner, Electric, Fancy, St. Eimo, Fietewing, Ladybird, Friar and Fay. As he worked them at 58 the day before (which is the fatest they have done yet) they ware only walking, trotting and cantering slowly for about two hours.

His second lot, consisting of the older horses, came out between 8 and 9 o'cook. With the exception of Triton they had the day before been doing mile work at 52. Triton, Monitor, Hopeful and Louisette only did slow, useful work, while Thackeray, st. Augustine, Tolu, Kevelier and Trafatigar after some slow work went a haif-mile at a sharp pace, after which they did a good galop of a unit in 52-2, all pulling up sound and weit. Thackeray and St. Augustine showed little sweat, while the others sweated freely. It was a creditable spin, and by the way they pulled up the second of the state of the same of the way they pulled up was a creditable spin, and by the way they pulled in the same of the same of the way they pulled up. after which they did a goo! gallop of a mile in 52½, all pulling up sound and well. Thackeray and St. Augustine showed little sweat, while the others sweated freely. It was a creditable spin, and by the way they pulled up they shewed that they have put in some good work. The next three weeks will make a great alteration in their appearance and condition. They are backward in their coats for this time of the year owing to the winter weather extending into the spring, but we may now reasonably expect warm weather, and in a short time they will have their summer coats. The kind of work they will have to do from now this the racing begins will and out the weak spots, if there are any, as the winding up of a horse in his preparation is the most successful season may be confidently anticipated for the stable. Everybody who takes any interest in tacing will be pleased to see this expectation realized.

OPENING THE BASEBALL SEASON.

The American Association championship season was formally opened on Saturday, all the clubs except the Brooklyn and Baltimore clubs contesting for pennant honors. The Brooklyn nine opens the season in a game with the Baltimore club to-day. The Metro politan and Brooklyn clubs open the championship season in this city and Brooklyn on Friday. Following

politan and Brooklyn citus open the championship season in this city and Brooklyn on Friday. Following is the schedule of games for this week:

April 20. Metropolitan vs. Athietic, at Philadelphia. Brooklyn vs. Baifmore, at Baltimore. Brooklyn vs. Baifmore, at Baltimore. St. Louis vs. Cincinnati. at Pt. Louis. Lenisville vs. Pitaburg, at Louisville. April 22. Brooklyn vs. Athietic, at Poliadelphia. Baltimore vs. Metropolitan at Baltimore. St. Louis vs. Cincinnati, at St. Louis. Louisville vs. Pitaburg, at Louisville. April 23.—Athietic vs. Brooklyn at Philadelphia. Baltimore vs. Metropolitan, at Baltimore. April 24.—Metropolitan vs. Athietic, at Polo Grounds, New-York. Brooklyn vs. Raltimore, at Washington Park, Brooklyn vs. Baltimore, at Washington Park, Brooklyn vs. Baltimore, at Washington Park, Metropolitan vs. Athietic, at Polo Grounds, New-York. Brooklyn vs. Athietic, at Choisa. Metropolitan vs. Athietic, at Choisa. Keyork. Cincinnati vs. Pittsburg, at Cincinnati. St. Louis vs. Louisville, at Cincinnati. St. Louis vs. Louisville, at Cincinnati. The newspaper reporters and the official scorers have

The newspaper reporters and the official scorers have generally adopted the new League scoring rules, even in the American Association cities. The scering will therefore be uniform throughout the country, and therefore be uniform throughout the country, and trustworthy records can be compiled at the end of the season. The new League rule, requiring the pitcher to Keep both feet on the ground until after the ball has left his hand, is not generally understood by the spectators. The new rule will prove disastrous to several of the best League pitchers. Radbourne says that the strain on the back is so severe that pitchers will not be able its play the season out under the rule. Neither Whitney nor Buffinton of the Boston club, is as effective in his delivery as formerly. Welch, of the local club, does fairly well, and has lost little of his effectiveness. Of the League pitchers who have played so far this season Keefe, the new man of the New-York club, seems to have done the best work. Keefe says he is not troubled by the new rule; he is the only pitcher who puts himself on record as favoring the rule.

Since Saturday's meeting the reinstatement of the blacklisted players has been the sole topic of conversation among the lovers of baseball. The action of the directors seems to meet with more general satisfaction than was at first thought likely. The neary fines imposed upon the players will probably keep baseball fires of such tricks is the future.

It was rumored hast might that Hugh Daly, the one-amed pitcher, who was among the reinstated players, will play with the Metropolitan club. Daly is an excellent pitcher, and such a man is badly needed by the local American Association nine. Without another pitcher the Metropolitan club has little chance of holding its own this year. Begley and Becanon have been cried, but have not proved strong enough for a nine like the Metropolitan club.

The New-York and Leo clubs play at the Polo Grounds to-day.

Louisville, April 19.—The Louisville and Cideinnati trustworthy records can be compiled at the end of the

Grounds to-day.

LOUISVILLE, April 19.—The Louisville and Cideinnati
cluss opened the series of championship games here this
afternoon before a rrown of 0,000 people. The weather
tas favorable and the game exciting and interesting,
though several bad erers were made by both clubs. The
visitors scored two runs in the sixth inning on a muffed

ball to left field and won the game. Following is the score by innings:

HOMING PIGEON FLIGHTS. The 126 homing pigeons of the Hudson Club of this city and Brooklyn sent last Saturday to Borden-town, N. J., were liberated at 9:05 a. m. yestesday. The returns to the lofts of Husson and Platt, of this city, and Liddle and Rover, of Brooklyn, were not timed. The

	Inloft	Time out	Distance miles.	Average Speed, yards per minute.
T. F. Goldman M. D. Maguire J. Ballard T. F. Read J. Y. Opitz J. Iversen S. H. Straub	10:41 a.m. 10:41 a.m. 10:40 a.m. 10:53 a.m. 10:55 a.m. 11:00 a.m. 3:31 p.m.	96 95 108 110	61 3-16 61 5-6 58 12 61 3-4 60 14 58 14 62 11-16	1,122 1,121 1,072 1,006 962 891 285

G. K. Bradshaw, whose birds are to be flown for record only through the season, reported first return in the loft at 10:40; time out, 95 minutes; distance, 58-1-16 miles; speed, 1,074 yards. At 11:30 Mr. Goldman reported eleven of his entry of fourteen by countermark, and made the discovery that in sending his birds away, his trained bird Damon had been overlooked, and the valuable bine of Lady Florence stock, from the breeding loft, and wholly untrained, had been sent instead. It was not then at home. The bird making the best speed in the journey is Frank Y., registered 441. It was imported from Antwerp last fail. When twelve months oid it won miles prize in a Belgian race, with 1,300 entries, from 350 miles.

THINKING HE MAY BE CHARLEY ROSS. The young man who thinks he is the missing Charley Ross is seventeen years old and lives at No. 25 Fourth-ave., Brooklyn. He has hitherte been known as Arthur Jackson Searing, son of Andrew Jackson Searing, who is in business as a photographer in Lakewood, N. J., while his family, consisting of his wife, two boys besides Arthur, and a daughter, live at his home in Brooklyn.

A TRIBUNE reporter called to see Arthur yesterday and found him alone in a room on the top floor of his

house.

"Hush," said the boy, when informed of the object of the visit, "they might hear us," pointing to an adjacent room in which other members of the family were sitting. "I will meet you in five minutes in Flatbush-ave., near Fourth-ave., and I will tell you all about it." At the appointed time the lad appeared and soon after, seated on a bench in Fort Green Place, related the circumstances that led him to believe that he was Charley Ross, and which had indused him the day before to place his case in the hands of Schuyler's detective agency, in Temple Court. He said he lived unhapply at home; that years ago while playing with the children of the family they had told him that he was not their brother, but an adopted child. "When the woman who claims to be my mother heard this," he said, "she looked at them in a peculiar way, but said nothing. I read a description of Charley Ross a year ago, and as I don't know of any other boy that is missing, I suppose I am Charley. Here is my photograph, taken when I was a little child. "He produced the likeness of a little boy not milks the pictures of Charley Ross that at one time appeared in the lilustrated papers. "Wait a moment and I will show you semething," he added. He pretired to a secluded part of the park and presently returned with an old copy book in his hand." I keep this always concealed about my clothing, he explained, "so that they can't get hold of it." In the copy book, written in ungainty characters, was the draft of a letter addressed "To the father of charley Ross." In it the boy stated that he had an indistinct recollection of naving suidenly awakened from a state of unconsciousness in a stable at Hanson Place and Fulton-st., Brooklyn, years ago. The man and the woman who now claimed to be his father and mother were standing near him. He thought he might be Charley Ross. Un did not want Mr. Ross to believe that he wished to impress him with the idea that he was. Arthur said he had not sent this letter to Mr. Ross, but thought of doing so. The young m

INCIDENTS AT CASTLE GARDEN.

Michael Schwartz, a steerage passenger of the steamboat Bohemia, was confined in a room in Castle Garden yesterday and will be returned to Hamburg as an assisted emigrant. Schwartz came from near will be fit to run at Jerome, where he also is entered for the Withers.

In addition to the withers, and in all probability will not be wanted till Moumouth.

Electric, whose sire and dam both won the Juvenile, a slow of him, and as he is good looking he should make his mark, when the.

But lino does not carry so much flesh as Electric, and will not be wanted till Moumouth.

Frat is a raiher peacocky coil, of good size, substance and quality. He will not be wanted till Moumouth, and carries a good deaf of firsh now.

Alcock was the first to appear on the track about 5 A. m. with his two year-olus, consisting of Marmer, and her power and promising of Marmer.

Alcock was the first to appear on the track about 5 A. m. with his two year-olus, consisting of Marmer, and he has appearently been and easisted emigrant. Schwartz came from mear than her stree last should has appeared to he had a substance and population of the says the say appearently been an immate of an aimshouse. He is about thirty-five years old, and healthy looking, but is imbeelle. His hands are parally looking, but is imbeelle. Hi the steerage passengers took an interest, poords the arrival a contribution was taken among them for Kate and her baby and a pound and several shillings was collected, all in English pennies. The boy was christened William Celtic Cotter. Kate says she has a sister living in New-Loudon, Coun. who assisted in paying her passage, and if permitted to go there she expects to find her

THE REPUBLICAN COUNTY COMMITTEE. No one has yet been definitely named as the probable candidate for chairman of the new Kepublican

County Committee. There will be contesting delegations from the HId, probably the Vith and possibly one or two other districts at the meeting of the committee on Tuesday evening, and until these contests have been settled no permanent organization can be effected. The election of officers will therefore go over to a subsequent

The friends of Edward Mitchell are anxious that he shall allow his name to be presented for chairman. Thus far he has not signified whether or not he will consent to be a candidate. James W. Hawes, once president of the Young Men's Republican Club, has many supporters. General Lieyd Aspin wall is also mentioned as available, and Professor Theodore W. Dwight and John D. Lawson are named. Joseph H. Choate would, it is conceded, make an exceptionally good chairman, and there are many memers who would like to see Cornelius N. Bilss in the chair during the coming year. He is not a member of the committee, but this could readily be arranged by having some one from his district resign when he could be chosen to fill the vacancy.

There is a general sentiment among the members of the committee that the chairman shall be a man who will commend nimself to all sections of the party in this city as one eminently fit for the place.

MR. WALFORD'S FIRST CONVERT.

The meeting at Masonic Temple yesterday was held in honor of Daulel Walford, the vice-president of the Manhattan Temperance Association. Mr. Wai-ford told a story called "The House that Tom Built; or, ford told a story called "The House that Tom Built; or, My First Convert." It appeared that "Tom" lived in the basement of an unfinished house on Long Island about twenty years axo. The tectotallers held a meeting near the place and Mr. Walford made a speech, saying that the proprictor of that house was either dead or a drunkard. "Tom" heard this, and it made him so desperate that he took the pledge. The result was that he inished his house, buried his wife, married a widow, buried her also, and married again. Mr. Walford is an old Englishman and has labored for the temperance cause nearly fifty years.

At Chickering Hall the Rev. George G. Morris, of Philadelphia, delivered an address before the American Temperance Union. He was followed by Robert Fowler Williams, the boy orator.

RETURNING THE ALERT TO THE QUEEN. Commander George W. Coffin, who commanded the supply steamer Alert in the Greely Relief Expedition, has been ordered to start with that vessel from the Navy Yard to-day and take her to Halifax, from the Navy Yard to-day and take her to Halifax, where she will be returned to the British Government, in accordance with a resolution passed by Congress. The Alert was presented to this Government by Queen Victoria in return for a similar courtesy when the United States purchased the Resolute, one of the vessels of the Sir John Frankin Search Expedition, from Capitain Buddington, and presented her to the British Government in 1875. After being fitted out at the Thames dockyard she came to New-York last May, and went North as the supply ship of the Greely Relief Expedition and returned without meeting with the slightest mishap.

FUNERAL OF WILLIAM B. DRAPER.

The funeral of William B. Draper was held in St. George's Episcopal Church, Flushing, L. I., yesterday afternoon. The Rev. Dr. J. Carpenter Smith and the Rev. Mr. Locke conducted the services. The body of the Bev. Mr. Locke conducted the services. The body of the dead man was enclosed in a plain black cloth-covered coffin, and the plate upon the lid bore simply the name of the dead man and the date of his birth and death. Paim branches covered the coffin, and above them was placed a pillow of lilies of the valley, rea roses and calla lilies, and a cross of ivy. The services were simple. Among the relatives and friends of the dead man present were his widow, Mr. and Mrs. Morgan Draper, John H. Draper, Mr. and Mrs. Morgan Draper, John Augustin Smith, Frederick Elliott, ex-Chief Justice L. Brantord Smith, Smith, Frederick Elliott, ex-Chief Justice L. Brantord Smith, Smith, Smith, Elliott, ex-Chief Justice L. Brantord Smith, Smith

State-st., he says, fronting on Battery Park, if he can State-st., he says, fronting on Battery Park. If he can procure the necessary land upon which to erect such a building. For the purpose of carrying out his plans he has determined to follow the example of the Rev. Father Drumgcoole in erecting the building occupied by the hission of the Immaculate Virgin, and has established an association called "The Society of Our Lady of the Rossary, for the Protection of Emigrants," the members of which will be called upon to pay 25 cents a year to help forward the Castle Garden Mission. He has already accumulated several thousand dollars in this way, and hopes soon to begin work upon his new "Church of Our Lady of the Rossary, for the Protection of Emigrants." Wherever he has been thus far, the people, he says, have received him most generously, and only a short time acc \$80 in 25 cent subscriptions was sent to him from Pittsburg, by poor people there who desired to become members of his new association.

THE TAMMANY ELECTION. The Tammany Society election to-night will be a quiet one. Efforts were made by some of the more ambitious members of the society to change the present board of officers, but it is understood that these have been in good part overraled. A small calal, in the absence of John Kelly, has attempted to make changes, giving out mysterious hints that it was Mr. Kelly's wish that it should be done. These assertious have been shown to be unfounded, and the result is that with one or two exceptions the old ticket will be re-elected. It was suggested that Joel O. Stevens, who has been secretary for twelve years, should be chosen a sachem, and Thomas F. Gilroy made secretary. This will not be done. Hugh J. Grant will be elected a sachem in place of Edward Kearney, who is now a member of the County Democracy. There was talk of dropping ex-Judge Albert Cardogo from the list and substituting Edward Califil or a Thomas F. Gilroy, but it is now doubtful if this will be done. Mr. Kelly's ill health will prevent his being present to-night at the meeting. It will be the first time he has been absent from the annual meeting since the resonganization in 1872.

MR. HENRIQUES'S FRIENDS OFFENDED. The change in the ticket presented by the nominating committee of the stock Exchange which has excited the greatest comment is the shelving of Mr.

Henriques. Several members of the Board said Satur-Henriques. Several members of the Board said Saturday, after the ticket had been posted, that this change made an opposition ticket a certainty. In regard to the changes in the governing committee, a prominent broker said: "I presume that some of the old men who are not active in business have been forced to give place to young members more nearly in accord with the times." When he was asked to explain why some old men had been retained and some young men replaced, he remarked: "Well, I guess that there will be a fixth anyway, but the regniar ticket will certainly be elected. It would not be much of a ticket if there was no opposition."

A DAGGER HIDDEN IN A FAN. Joseph Dion, the billiard player, met with a Joseph Dion, the billiard player, met with a peculiar accident on Friday night, which will prevent him from taking part in the billiard tournament which he was to open to-wight. Dion and one of his room-keepers were passengers in an elevated train and occupied scats near two fashionably dressed women, who left the train at Twenty-third-st. The room-keeper saw an elaborate Japanese fan lying in the seat vacated by the woman. He tried to open it, but failed and turned it over to his employer, who pulled at the strings at tached to the fan, when a long, sharply pointed darget shot out of the handle and cut Dion on the joint of the third fineer. "What women want of such a timp I can't imagine," said he to a Thinting reporter; "I don't think that it was left with any intention to injure me."

THE SUNDAY TRIBUNE.

Mr. Oscar Wilde contributed to yesterday's SUN-DAY TRIBUNE an essay on "The Philosophy of Dress "; G. W. S. wrote of Easter in London; other letters were from TRIBUNE correspondents, in Paris, on Ferry's dawnfall; in Berlin, on Bismarck's Birthday ; in Vienna, on Hans Makart and the sale of his effects; in Washington, on social and personal topics. "John Paul" wrote of Nature and Art in Florida; an old soldier told of a Mystery of the Rebellion; a "Night-Cap Party" was described by one who was there, and Mr. Edgar Fawcett gave a Social Silhouette of The Lady who is Sensational. "Glances at Timely Topics" and Round About Town" were features of local interest; "A Morning at Monmouth" told what the racers are doing; "Talk at Great Centres" gave views of life in other large cities, and there were numerous Current Anecdotes, etc., making up a paper of notable interest. A special correspondent told of the voyage of the United States marines to the Isthmus of Panama; G. W. S. sent a cable letter on news topics in Loudon; a biography of N. P. Willis was reviewed; Music, the drama and society were accorded due notice and the news of the day from all parts of the world was presented fully.

The following if a synopsis of leading topics: FOREIGN.—General disapproval of Mr. Gladstone's
Russian ponicy. European countries have deciared quarantine against vessels from Spain.
French Ambassador at Pekin or lered to continue
peace negotiations — Egyptian Government
ordered to reopen the office of the Bosphore Egyptien.

No present danger of an attack on Battleford.

THE MONEY MARKET.

The Treasury's statements of balances continue to

show a loss of gold and an accumulation of silver. Last week the gain of one just about equalled the loss of the other. The gold loss of \$1,238,260 was made by an increase of \$1,770,850 in the amount of outstanding gold certificates, less a gain of \$532,590 in the metal. The Treasury issue of gold certificates is an unquestionable convenience to the banks, but the system is utterly useless to the Treasury, is attended with considerable expense to the Government in the engraving and elerical labor necessary to their issue, and in times like these is an incentive to the hoarding of gold by persons who would not wish to take care of the actual coin. The THE TAMMANY ELECTION.

The Tammany Society election to-night will

Government is now the "Safe Deposit" for \$122,111.220 of gold (represented by outstanding certificates). 220 of gold (represented by outstanding certificates), in which it has no more direct or indirect interest than it has in the gwheat and corn stored in the New-York and Chicago cievators. But the presence of that sum of "deposited" gold in the Treasury does lead to loose libras of "the enormous amount" of the Treasury reserve. The gain last week of \$1,270,127 in silver deliars and silver bullion was made by an accumulation of \$0,29,477 of the metal and by a reduction of \$6,0,500 in the amount of outstanding certificates. The Treasury now owns \$90,542,134 in silver dollars and bullion, against \$36,356,009 on January 1, 1885; it owns, in excess of the \$100,000,000 reserve for lead tender notes, only \$20,253,920 in gold, against \$41,088,431 on January 1, 1885. During the time the necessary denotes and the outstanding gold certificates have been reduced \$3,293,810; the gold in the Treasury has been \$10,892,324, and the outstanding gold certificates have been reduced \$3,293,810; the gold in the Treasury increased \$7,389,239, but the outstanding gold certificates lacreased \$28,823,800. These results are instructive; they show that a further circulation of silver dollars or certificates will be accomplished only by a refusal to pay Treasury debts in anything else; that the Treasury has accumulated some \$3,000,600 of silver in medition to its purchases and has had paid it \$3,293,810 more of silver certificates than it has been able to pay out, while its gold ownership has been reduced \$21,434,511. Under these circumstances, how long will it be safe to count the other items in the closh as other than representatives of allver dollars? Last week shows an aggregate gain in legal-centers, National bank notes and deposits in National banks of \$1,620,800, so that the not gain in available "cash was \$1,650,867. The addition to the store of fractional silver coins (\$1,16,716) was little larger than the usual weekly average. The fellowing compare the results of yesterday's statement with those of fractions and weekly average. T in which it has no more direct or indirect interest than Gold cotn and bul. April 11, 1885. April 18, 1885. Changes.

\$84,359,119 \$90,129,287 Inc. \$1,770,168 Total balance. \$85,359,119 \$90,129,287 Inc. \$1,770,168 Yesterday's bank statement was of the usual order, showing a further accumunation of \$2,869,000 in legal money and a probable gain of \$700,009 in National bank notes. Volumes of statistics and theories would not more clearly illustrate the general coosition of affairs. One hundred and thirty-nine millions, eight hundred and seventy-seven thousand and nine hundred dollars of legal money in the vacuts of the Associated banks is a sum sore than double the amount of the capitals of the banks that are carrying it. Yet the loans were contracted \$134,700. The sirplus reserve now stands at \$50,393,575 or \$27,800,000 greater than the sum at this date 1884, and \$49,700,000 greater than in 1883.

The following compares yesterday's statement with those of the corresponding date of 1884 and 1883.

| 1884 and 1883; | 1885 | 1884 and 1883; | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1885 | 1 Thefollowing shows the celu lon between the total re-Specie \$5.1868.50) \$60,750,100 \$107.601.800 Legar tenders 18.421,500 16.981,500 32.186,100 Total reserve. \$72,203,300 \$87,731,900 \$139,877,900 Reserved recourd 71.640,025 85,163,325 80,484,325 Surplus \$604,275 \$2,000,575 \$50,383,575 39.08 95.99 25.78 The following is yesterday's statement in detail :

The receipts and shipments of wheat, corn and oats at the principal Western points of accumulation for four weeks compare as follows: RECEIPTS,

Week ended Mar. 28, bush. 863,000 3,110,530 908,339. Week ended April 4, bush 826,070 3,190,310 982,100 Week ended April 1 hush. 75,230 2,353,845 672,365 Week ended April 18, bush 631,200 1,225,505 854,015 Since Sept. 1, 1834, bush. 60,166,334 62,312,791 35,871,418 Same time in 1883, bush. 43,496,250 75,077,927 35,493,106 Same time in 1882, bush. 5,4910,207 72,734,459 30,104,753 SHIPMENTS.

Week ended Mar. 25, bush. 560, 410 (2,058,725) Week ended April 4, bush. 780,000 (2,058,725) (2,00,370) Week ended April 15, bush. 621,000 (1,330,000) (1,400,140)

Since Sept. 1, 1834, bush... 26, 405, 336. 45, 187, 234. 30, 547, 316. Same time in 1853, bush... 28, 075, 960. 54, 141, 916. 28, 318, 150. Same time in 1852, bush... 28, 075, 960. 54, 141, 916. 28, 318, 150. Same time in 1852, bush... 27, 42, 781. 43, 50, 001. 23, 728, 331. The Eastward railway movement from Chicage of flour, grain and provisions last week was 12, 400 tons less than in the preceding week and 12, 400 tons less than in the week of 1884. The distribution of last week's tennage looks like a revolution in the carrying capacities of the various roads. The Fort Wayne took 25, 6 per cent against 28.1 per cent by the three Vanderbilt lines and the Grand Trunk comes near to the front with 20.5 per cent. Lake Shore fails central both. Baltimore and Ohio and the Nickel Plate and Erie secured only 3.3 per cent.

The following table shows the tons and percentages shipped by each of the railroads east from Chicago of flour, grain and provisions for the week ended last Sat-

urday in comparison with the same week of 1883 and

| 1884 | Week ended April 18 | 1883 | 1894 | 1885 | Tons. Per ct. Tons. 28,474 100 82,907 100 70,519 100 The totals of each article carried by all the the weeks of three years were as follows:

70,519 82,907

RECEIPTS AT PORTS. For the week, bales 68,527 30,274 23,723 Since September 1, bales 5,552,665 4,672,343 4,624,818

EXPORTS.

The activity and boom in the Mining Stock market noted for the preceding week did not continue through the whole of last week and the sales amounted only to 70,933 shares, against 128,670 shares for the preceding week. Some further early advances were established for a few of the Comstock shares, but generally they afterward relapsed and closed lower than week ago. Sutro Tunnel, which furnished twothirds of the week's whole business, ranged from 20 to 13 cents and closed at 14 cents. Consolidated California and Virginia sold up to \$1.05 and then down to 68@70 cents. All the other Constocks were dull and week, Hale and Norcross declined from \$10.50 to \$8.28.25. The remainder of the market was quiet and featureless. Horn Silver rose to \$2.50 but later sold at \$2.20.28.225 and Plymouth with small sales rose from \$16.37 to \$16.62.

> GRAIN AND PRODUCE MARKETS. FEATURES OF NEW-YORK DEALINGS.

NEW-YORK, April 18.
The business week at the Produce Exchange closed to-day with quiet markets and a recovery in prices. The attention of the trade has been divorced temporarily from the Anglo-Russian complications, about prices. The attention of the trade has been divorced temporarily from the Angle-Russian complications, about which opinions are much at sea. The bulls in wheat are using as arguments that prevailing prices are not too high and the shortage in the winter wheat crop, which appears to have been assured by the bad weather last winter and this spring, and the bears are applying their old arguments that general business and the statistical position of the cereal warrant a docline. Wheat rose hearly 2 cents from the final figures yesterday and ented at a net gain of 1 1.3 % 14 cent. Corn closed at the best prices of the day and up 12 14 cent, and onts were firm at an advance of \$4 cent. Final prices were for wheat: April, 978; June, 914 cents; July, \$1 018; and August, \$1 023. Corn ended at 53% for April, 544, for May, 544, for June, and 559 cents; July, \$1 018; and July, 40 cents. Provisions were stronger and higher.

At New-York, Baltimore, Philadelpina and Boston the receipts of grain to-day were: Wheat, 49,752 bushels; corn, 166,342 bushels; outs, 70,370 bushels; total grain, 280,464 bushels. The receipts at Chicago, Milwankes and St. Louis were: Wheat, 113,520 bushels; corn, 166,340 bushels; outs, 167,296 bushels; total grain, 427,216 bushels; flour, 35,144 barrels.

THE PETROLEUM MARKET.

In the last week the daily average excess of e of an increase in the output of the Thorn Creek d trict to between 12,000 and 13,000 barrels a day. A week ago the excess of deliveries amounted to only 1,313 barrels a day; the average for April now stands at nearly 3,000 barrels. The runs, however, show a small increase in the daily average over last month, and the deliveries have fallen off from March by about the same amount as the average daily increase in the runs. In a general way the situation of the oil trade is unchanged, but a great deal of interest is concentrated on the development works going on at the eastern end of the aiready assured fertile portion of the Thorn Creek field. There is a chance that its limits may be extended in this direction, and something ought to be known of the prospects through the opening of the Stowe and some other wells this week. However, it will require the discovery of many more good fields in this region to raise Thorn Creek to the importance it possessed when it was an undefined field, rich in possibilities of development, which afterward became facts.

The pipe line runs now average 56,131 barrels per day, acainst a daily average of 54,089 barrels last month, 65,814 barrels in April, 1884, ont 69,207 barrels in April, 1883. The daily average of deliveries is 59,082 barrels, as compared with 61,026 barrels last month, 54,778 barrels in April, 1884, and 63,412 barrels in April, 1883. The charters average 45,030 barrels aday, against 28,068 barrels last March, 33,318 barrels in April, 1883. The diarters to the 17th) are as follows: reek ago the excess of deliveries amounted to only
